PROJECTS

Hospital Management System (Full-Stack):

Developed a full-stack system to manage patient records, doctor schedules, and appointment bookings, ensuring efficient hospital operations.

Tuition Centre Management System (Full-Stack):

Designed and implemented a platform to handle student enrollments, attendance tracking, and teacher assignments for a tuition center.

Food Delivery Website (Full-Stack):

Created a responsive website for browsing menus, placing orders, and tracking deliveries, featuring both a dynamic front-end and a robust back-end.
